a celebration of architecture
The AIA Delaware Design Awards Program is an important part of AIA Delaware’s tradition of recognizing significant achievements by individuals and organizations in support of the profession of architecture in planning, design, and execution of architectural projects.

By focusing attention on a broad range of exemplary activity in the profession, the general quality of architecture practice is elevated and a standard of excellence is established against which all architects can measure their own performance. The program helps to promote public awareness and appreciation of the breadth and value of architecture and architectural practice; and to promote the work of our AIA Delaware members.

AIA Delaware’s 2014 AIA DEsign Awards recognized significant achievements by members in planning, design, and execution of architectural projects. AIA Delaware accepted submissions of all project types and scales, as it is the Chapter’s intent to recognize work that exhibits exceptional design quality.

Award winners were announced at the 2014 AIA DEsign Ball, a celebration of design and construction in Delaware. This event was the centerpiece of AIA Delaware’s 2014 Design Awards Program, held on Tuesday, December 2nd at The Queen Theater located at 500 N. Market Street in Wilmington, Delaware.

about the AIA
The American Institute of Architects (AIA) has been the leading professional membership association for licensed architects, emerging professionals, and allied partners since 1857. With nearly 300 state and local chapters, members of AIA strive to be of increasing service to society in our cities and towns by working with business leaders, civil servants, and volunteers to improve our communities and improve the integrity, utility, aesthetics, and value of our built surroundings.
eligibility
Participation in the 2014 AIA DEsign Awards Program was open to all AIA Delaware members and architecture firms whose principal(s) or partner(s) are members of AIA Delaware in 2014.

project categories

Built
Projects submitted in this category must be completed after January 1, 2007 and be occupied at the time of entry.

Special Recognition: Sustainable Design
This citation acknowledges built projects that have integrated sustainable building strategies and practices into the design in recognition of the impact buildings have on human health, worker productivity, and natural, environmental, and regional prosperity.

Unbuilt
Projects submitted in this category must have been commissioned by a client with the intent to build.

award levels
There are three levels of awards: Honor Award, Merit Award and Citation Award.

Honor Award
AIA Delaware’s highest award; recognizes projects with distinctive character and outstanding merit.

Merit Award
Acknowledges projects that clearly demonstrate a level of design that exemplifies superior achievements.

Citation Award
Highlights projects of notable accomplishment, similar to Honorable Mention.

Each project was weighed individually, not in comparison with any other. An “award winning project” demonstrates a high level of design resolution and/or advances the contemporary understanding of design by proposing a new approach to the development of architectural form.
jury
The 2014 DEsign Awards Program Award Jury, from AIA South Jersey, was chaired by Bruce D. Turner, AIA.

**Bruce D. Turner, AIA**
Bruce Turner is a sole practitioner architect who lives and works in Vineland, NJ. His work is predominantly for residential, commercial and municipal clients, and he has previous experience in educational, assisted living, religious, corporate, industrial and historic preservation work. Mr. Turner is the longtime president of AIA South Jersey and is the current chair of the AIA New Jersey Public Awareness Committee. In 2005 he was president of AIA New Jersey. He was the 1998 recipient of the AIA New Jersey Young Architect of the Year Award, and the 2009 recipient of the AIA New Jersey Distinguished Service Award. Mr. Turner is a graduate of the University of Notre Dame and is a LEED Accredited Professional.

**Kimberly L. Bunn, AIA**
Kimberly Bunn, AIA, is owner of Bunn Architecture, a small firm based in Moorestown, NJ, specializing in residential and commercial projects. With over 19 years’ experience in the South Jersey area, she specializes in historic renovations and the incorporation of environmentally sustainable principles into her projects. An active AIA member for 15 years, Kim is a Past President of her local AIA West Jersey section where she still sits on their Board of Trustees, and is currently President-Elect of the AIA New Jersey chapter and serves as AIA New Jersey Communications Committee chair. In addition, she sits on a number of boards in her community and recently co-authored a book on local history.

**Michael Cagno**
From 1999-2006, Michael Cagno served as the Executive Director for the Riverfront Renaissance Center for the Art in Millville, New Jersey. Since August 2006, he has served as Executive Director of The Noyes Museum of Art of Richard Stockton College. Michael currently serves on the Board of Trustees for New Jersey Art Pride, Mid-Atlantic Associations of Museums and has served as board member for the New Jersey Association of Museums and the South Jersey Cultural Alliance as Vice President. Having a Bachelors Degree in Fine Art from Rowan University, Masters Degree in Museum in Management and a Graduate Certificate in Arts Administration from Seton Hall University has allowed Michael to follow his passion for the arts. He also shares this passion as an adjunct arts professor at Cumberland County College and Stockton College.
**Jason Lutz, AIA**

Jason Lutz is an architect at Kitchen & Associates, in Collingswood, New Jersey and is a graduate of Temple University Tyler School of Art. Jason is the 2014/2015 President of AIA West Jersey and is a licensed architect in New Jersey and Pennsylvania. He is also a certified member of the National Council of Architectural Registration Boards. Jason is an active participant in AIA West Jersey’s Committee of Emerging Professional, a group dedicated to the professional development of interns and emerging professionals within the architectural profession. He also volunteers his time within his community lending his knowledge of environmentally conscious design to the Mount Laurel Green Team.

**Daniel Scott Mascione, AIA**

Dan is the principal of Daniel Scott Mascione, Architect LLC, where since 1996 he and his team have been providing a range of services from planning to occupancy for commercial, institutional, and residential projects in the southern New Jersey area. Having been involved with the AIA since 1992, Dan has served in several positions with AIA South Jersey, and he also served as a member of the Board of Trustees of AIA New Jersey. A strong believer in continuing education, Dan has received Construction Official, Subcode Official and Building Official Licenses, and is an instructor for other local officials through the “Train the Trainer Program” in New Jersey. Dan is also a LEED Accredited Professional.
